

ADSC West Coast Chapter

Industry Advancement Fund, Inc.

The ADSC West Coast Chapter (a Chapter of the International Association of Foundation Drilling) formed a Corporation called the ADSC West Coast Chapter Industry Advancement Fund, Inc. (WCC-IAF). **This California Corporation 501C-3 non-profit, tax deductible organization was created for the public benefit in West Coast Chapter Territories.**

The Corporation is organized exclusively for charitable, educational, and scientific purposes. The WCC-IAF can be used to educate the federal, state, and local government and the general public respecting engineering and scientific techniques, processes, and knowledge important to drilled shaft foundations and geo-support construction. The WCC-IAF may conduct or sponsor research respecting drilled shaft foundations, geo-support construction as well as award engineering student scholarships. This organization can also sponsor, host and/or fund educational conferences, seminars, and other meetings to promote the development or improvement of engineering techniques, processes, and other knowledge important to drilled shaft foundations and geo-support construction, thereby benefiting the public.

The WCC-IAF is now accepting your 2011 donations. This fund keeps your money in the territories of the WCC, where YOUR COMPANY can benefit, and it is TAX DEDUCTIBLE. (Prior to December 21, 2011)
